

Brian Justin, WA1ZMS: Brian received his first amateur radio license in 1976 at age 12 and has held the same call sign, WA1ZMS since then. He holds a BSEE degree from the University of Vermont and is currently employed as a Sr. Principal RF Engineer with Harris Corporation. His interests in radio are focused on all bands above 24GHz up to 630GHz so far. He collects pre-1922 antique radio gear and spark transmitters. He has many world DX records on all amateur bands above 24GHz including VUCC on 47, 76, 122, 134, 145, & 241GHz and DX records on all bands above 100GHz. Brian also holds the only Worked All Bands award after submitting proof of 2-way radio contacts on all 27 US amateur radio bands. He is a Life Member of the ARRL, a member of the Antique Wireless Association, a member of QCWA and received the ARRL's Microwave Development award in 2004 and the ARRL Technical Award in 2013.
